II. NEGOTIATIONS

- We met with the District on Tuesday, January 11, 2022, clarified positions on what has already been agreed to, set an outline of what will be discussed in our next session on January 14, 2022 and agreed that our respective fiscal advisors will meet with us on January 20, 2022 to discuss the District’s financial position and begin thereafter to work on salaries and fringe benefits and other outstanding issues.

III. ABSURD PERB ALJ DECISION

- PERB “Judge” refused to adjourn the Friday, January 14 PERB hearing (which is also our next negotiating session) even though:

- i. The LRS who had been working on the case has family medical problems and can not attend.
- ii. A letter was written to her indicating that the District and BTF were making progress on resolving the issue.
- iii. The District has no objection to reschedule.

The Issue: The District's failure to respond to our demand for cleaning logs, air filtration documents, etc.

This refusal is not only demented, but wrong.

We have appealed her decision, to Albany and will not be there (I was also to testify).
