RE: No Confidence Resolution

As per my presentation to you at the September 21, 2022 Board of Education meeting, enclosed ([Click Here](#)) is a copy of the resolution to which I referred and which was passed unanimously by our Executive Committee and Council of Delegates.

Once again, we state that we are willing to resume negotiations before Fact-Finding on October 7, 2022. We are willing to include the Fact-Finder who has indicated that he is willing to also act as a mediator.

We are awaiting possible dates. Once received, each negotiating team can submit proposals that have been discussed previously and on which there may be agreement. Obviously, other important counter proposals can be submitted.

We look forward to reaching a contract that we all agree reflects the dedication and commitment of Buffalo teachers to their students.
